Olympic Community of Health - Governance and Organizational Structure – Attachment D

Overview

Assessment and planning are core functions of the Olympic Community of Health (OCH): they keep us grounded and focused on addressing the health needs of our communities. The Regional Health Assessment and Planning (RHAP) Committee will be accountable to the OCH Leadership Council to ensure this vital component of the OCH work is high quality and reflective of the communities we all serve.

Objective

The RHAP Committee guides the OCH to meet our contractual obligations of continually developing a Regional Health Needs Assessment (RHNA) and Regional Health Improvement Plan (RHIP).

Responsibilities

- Update the RHNA as new information comes available.
- Develop and update a RHIP.
- Submit the RHNA and RHIP to the Leadership Council for adoption at regular intervals.
- Share developments on the RHNA and RHIP with the OCH Stakeholder Group for feedback.
- Submit project ideas to the Council for discussion and approval.
- Perform RHNA and RHIP-related activities on a case-by-case basis as charged by the Council.

Timeline

The RHNA and RHIP are living documents that will be continually updated as new information comes available. The RHAP Committee will meet as needed to be accountable for the quality and accuracy of these documents. Note that the timeline may vary based on the OCH contract with the State.
